

VOLUNTEER /SPONSORSHIP FORM

www.genero.cm

Genero foundation is a non-profit making small scheme in diverse areas where need is found for personal or community enhancement. In summary, this is a Pan-African initiative with the mission to freely develop potentials; empower people, organizations and communities to even know and assume responsibility for their economic development challenges. Genero Foundation is a subsidiary from some of the proceeds and largess of GENERO J GENERO. This form is for any well wisher/supporter/sympathizer and friend who wants to join to support any project or cause as well as an individual who by so doing will help improve a community

PREAMBLE:

Genero Foundation is a subsidiary to GJG, which tie with our corporate social responsibility and here we primarily strive to solve human problems, aiming at filling the gaps which often go unnoticed. We strongly believe that one must not be blind, lame nor orphaned before support can come.

That is why we call on you celebrities, public figures, organizations, a reputable individual or an accomplished being, persons in all walks of life, this clarion call concerns you too. The best achievement remains in positively influencing the lives of a person or community in such a way that they can never pay you back. Giving joy to others brings joy to you and to them.

Conventional methods of charity and hand-outs to solve poverty have been unsustainable and thus not successful. In an attempt to instill sustainability, our approaches to this community development is therefore unconventional – derived from synthetic imagination and action and through that we can catalyze, support and advocate on any issue which at the end will foster socio-economic development.

How can innovation make a difference to you? By joining a cause created and designed to address a social problem; this non-loss and non-dividend activity by reaching out to others, shows your gratitude to what life has to offer and this in turns unlocks the fullness and meaning of life – love for one another.

Therefore together with joy, we can through this innovative concept of GENERO, overcome poverty, by reaching in diverse areas like education, health, technology access, and environmental issues and you name the rest. We shall help others not just to be financially and economically stable but emotionally and psychologically fit to live lives as human beings, an aspect of community development which is often overlooked.

Meanwhile, we hereby declare that we are not here to cause any breach of public order and public decency (in particular by denying the commission of any crimes against humanity, any incitement to racial hatred, pornography, etc.); as we strive to enhance our communities. We are not here to create a false identity or to use the identity of a third party whom we are not in touch with. We do not take part in a project which conflicts with the interests of the Organizing Company nor do we transmit any data which breaches any intellectual property rights or third-party rights and in particular trademark rights, patent law, personal rights or copyright. We gladly and shall always abide by the laws governing any particular region where we find ourselves.

Assuming that you have previous knowledge and a glimpse on the activities of Genero Foundation and the corporate social acts of the entire Genero J Genero, we now invite you to go through our membership form and fill it as part of the process that is involved in joining our noble team. All the pictures here are a sole property of the organization and all rights reserved. All of them have messages to better explain the support concept and you can contact the team for to explain and elucidate.
